

▼ chapter scholarships

The following individual chapter scholarship funds are currently administered by the TKE Educational Foundation. They have been established by chapters or alumni of chapters to provide scholastic assistance to members of TKE in their educational pursuits.

Any chapter, alumni association, or individual member may establish such funds, which are held within the Foundation's endowment investment portfolio. Funds are managed by professional money managers and oversight is provided by the Foundation Board of Directors through its Investment Committee, which is composed of financial professionals.

For additional information regarding the establishment of such a fund, contact Gary Reed at the Foundation at 317-872-6533 or at reedga@tke.org.

*Scholarships must reach a fund balance of \$5,000 before awards can be distributed.

Note: Scholarship funds may reflect pledges that have yet to be received.

There are funds currently being administered by the Foundation for non-operating, closed chapters of TKE. The corpus of each fund remains intact and will be available in the event any chapter is reactivated in the future. In the meantime, the Foundation reserves the option to offer scholarship awards from the earnings of these funds to any undergraduate Teke meeting scholastic requirements. The directors of the Foundation strongly support the fact that the funds were established to assist members of the Fraternity in their educational pursuits. The fact that a chapter is closed should not preclude awards being made to other deserving members of TKE.
