- TKE offers the opportunity to host responsible social events to interact with others on campus.
- Chapters hold brotherhood events (events open only to members) to continue bonding as brothers in a fun, social atmosphere.
- TKE encourages its members to be involved on campus in various other organizations and activities as well.
- Through TKE you have the opportunity to meet others on campus and in the community through involvement in organizations, events, mixers with sororities, intramurals, educational programs, and more...
- TKE is a membership organization, and recruitment of new members is vital to the organization's success. This requires our members to practice and hone their conversation skills by interacting with new people on a daily basis.

While fraternities have serious values and purpose, they are also meant to be fun. TKE provides you the opportunity to find your niche on campus where you can get away from college's stresses to kickback and be yourself.
